

# APPLICATION FOR SURGE SUPPRESSION SERVICE

## TERMS AND CONDITIONS

**This agreement is between Mille Lacs Energy Cooperative, hereinafter called Cooperative (Co-op), and the member at stated location. The member acknowledges that he/she understands and agrees to abide by these terms and conditions. The agreement shall automatically be renewed on a month to month basis until terminated by either party.**

1. Prior to the installation of the surge suppression service, or any Meter Base Surge Suppression Device (MB-SSD), the Coop's designated representative will inspect the home's external grounding system to verify that a proper external safety ground exists at the service entrance. If the Co-op's representative should determine that any of the home's electrical grounding system or wiring are inadequate for the proper installation of the MB-SSD (s) the Co-op reserves the right to refuse installation until necessary corrections are made.
2. The MB\_SSD can only be installed, serviced or removed by the Co-op's designated representative. Maintenance work will be done during regular working hours Monday through Friday, excluding holidays.
3. Applicant hereby grants the Co-op the right to install and maintain the MB-SSD and appurtenances on the property of the applicant. There is a **\$10.00 (plus tax)** installation fee. This payment of \$10.69 is payable in advance of installation.
4. All surge suppression devices including the MB-SSD, which is an integral part of the sealed electric meter, shall remain the property of the Co-op. The design and manufacture of the MB-SSD shall be selected by the Co-op.
5. Service charges for the service will be billed with the consumer's regular monthly electric bill at the current rate of **\$3.95** per month plus applicable tax and shall be considered due upon the same date as the electric service bill. If the device is removed either due to non-payment or customer request, there will be a **\$50.00** reinstallation charge if the customer requests the device to be re-installed.
6. The service fee for the surge suppression service may be increased as deemed necessary by the Board of Directors.
7. The member understands these MB- SSD(s) will not protect against direct or indirect lightning strikes beyond the manufacturer's rated energy diversion capability.
8. It is understood and agreed the applicant accepts the MB-SSD "as is" and the Co-op makes no representations or warranties regarding the performance of the product being provided.

As the consumer requesting this surge suppression service, I agree to the terms and conditions of this agreement.
